

SALADO

Honest and Enduring

THE SALADO DIFFERENCE: PEOPLE. PRODUCTS. SERVICE.

Our natural limestone and sandstone are environmentally-friendly products of the highest quality, meticulously crafted to our clients' most exacting standards and always competitively priced.

THIN STONE VENEER

When you want the durability and beauty of natural stone without the weight, think natural thin stone veneer. Once installed, it resembles much larger, heavier pieces of stone. It can be great for your bottom line, thanks to faster installation and reduced shipping costs.

ARCHITECTURAL CUT

The details make all the difference in stonework, which is why the right architectural cut features—like headers, sills, caps, quoins, panels, window surrounds and paving—can elevate a design to sensational.

With architectural cut (also referred to as dimensional cut stone), you can specify the height, length and thickness of the finished pieces to have the stone precisely manufactured to your exact specifications.

Architectural Cut White, Cream and Cave

Sonoma Latte

Architectural Cut Cashmere and Sonoma Cream

“Salado has great quality control because of the pride they take in their work.”

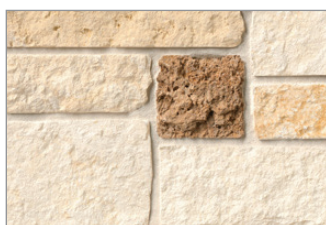

SALADO PATTERNS AND COLORS

Available in thin stone veneer, full bed depth and architectural cut, our wide range of patterns and colors will help you realize the exact look and style you are trying to achieve.

Are you trying to create something completely unique? We offer an endless variety of cuts, colors, sizes, textures and finishes. Go ahead—mix and match different patterns and colors, add elements of architectural cut stone and different finishes such as brushed, honed or chatted—and make something uniquely your own.
